## Enter My World

ENTER MY WORLD By Janice Veldman you need to reach me not make me reach you this is a set-up for failure for it cannot happen do not argue tell me it is all right offer words of pseudo encouragement avoid all signs that you are not listening unable to reach me what has worked in your world of problem solving will not work in this world this world is not based on logic, order, and for that matter problem-solving. this is not your problem. I am not your problem. this is an illness which lacks understanding if able find a safe, momentary rock upon which to stand in the midst of instability. if you must use strategy then find the lost key that will open the door allowing you to enter my world
